

Table of Contents

Massively Parallel Programming Languages

Data Parallel Programming in the Parallel Object-Oriented Language OCore	1
<i>Hiroki Konaka, Takashi Tomokyo, Munenori Maeda, Yutaka Ishikawa, and Atsushi Hori</i>	
Polymorphic Matrices in Paladin	18
<i>Frédéric Guidec and Jean-Marc Jézéquel</i>	
Programming and Debugging for Massive Parallelism: The Case for a Parallel Object-Oriented Language A-NETL	38
<i>Takanobu Baba, Tsutomu Yoshinaga, and Takahiro Furuta</i>	
Schematic: A Concurrent Object-Oriented Extension Of Scheme	59
<i>Kenjiro Taura and Akinori Yonezawa</i>	

Distributed Programming Languages

(Thread and Object)-Oriented Distributed Programming	83
<i>Jean-Marc Geib, Christophe Gransart, Chrystel Grenot, and Philippe Merle</i>	
Distributed and Object Oriented Symbolic Programming in April	104
<i>Keith L. Clark and Frank G. McCabe</i>	
Reactive Programming in Eiffel//	125
<i>Denis Caromel and Yves Roudier</i>	

Formalisms

Proofs, Concurrent Objects, and Computations in a FILL Framework	148
<i>Didier Galmiche and Eric Boudinet</i>	
Modular Description and Verification of Concurrent Objects	168
<i>Jean-Paul Bahsoun, Stephan Merz, and Corinne Servières</i>	

Distributed Operating Systems

CHORUS/COOL: CHORUS Object Oriented Technology	187
<i>Christian Jacquemot, Peter Strarup Jensen, and Stéphane Carrez</i>	

Adaptive Operating System Design using Reflection	205
<i>Rodger Lea, Yasuhiko Yokote, and Jun-ichiro Itoh</i>	
Isatis: A Customizable Distributed Object-Based Runtime System	219
<i>Michel Banâtre, Yasmina Belhamissi, Valérie Issarny, Isabelle Puaut, and Jean-Paul Routeau</i>	
Dependable Distributed Computing	
Lessons from Designing and Implementing GARF	238
<i>Rachid Guerraoui, Benoît Garbinato, and Karim Mazouni</i>	
Design and Implementation of DROL Runtime Environment on Real-Time Mach Kernel	257
<i>Kazunori Takashio, Hidehisa Shitomi, and Mario Tokoro</i>	
ActNet: The Actor Model Applied to Mobile Robotic Environments	273
<i>Philippe Darche, Pierre-Guillaume Raverdy, and Eric Commelin</i>	
Software Management	
Component-Based Programming and Application Management with Olan	290
<i>Luc Bellissard, Slim Ben Atallah, Alain Kerbrat, and Michel Riveill</i>	
The Version Management Architecture of an Object-Oriented Distributed Systems Environment: OZ++	310
<i>Michiharu Tsukamoto, Yoichi Hamazaki, Toshihiro Nishioka, and Hideyuki Otokawa</i>	
Formal Semantics of Agent Evolution in Language Flage	329
<i>Yasuyuki Tahara, Fumihiro Kumeno, Akihiko Ohsuga, and Shinichi Honiden</i>	
Author Index	349
